

P-Cardholders making equipment purchases with **federal funds (funds beginning with 20XXXX)** must screen vendors **before making the equipment purchase** to comply with federal research security requirements. Examples of purchases that require screening are listed below. This list may not be complete and will be updated as new federal guidance is published. **When in doubt, please screen the vendor in Visual Compliance.**

Screening required	Screening not required
Computing and Data Processing • Servers • Workstations • GPUs • CPUs • Memory • Storage devices • Network hardware • AI accelerators	General Computing (Basic Office Supplies) • Laptops • Monitors • Printers
Telecommunications and Networking • Wireless access points • Cellular devices • Routers • Switches • Network cards • 5G equipment	General Lab Consumables • Pipettes • Gloves • Tubes • Reagents • Chemicals • Glassware
Drones and UAS Equipment • UAVs • Remote sensing drones • Flight controllers • Drone payloads	Basic Non-Networked Equipment • Hand tools • Mechanical fixtures
Scientific Equipment that collects, processes, stores, or transmits data • Genomic sequencers • Imaging systems • Smart sensors • Remote monitoring platforms • Internet-connected laboratory devices	Services and Other • Publishing charges • Memberships • Conference Registration fees • Shipping • Routine laboratory testing services
Video Surveillance and Security Technology • Cameras • Video analytics • Access control systems • Security appliances
