<sup>i</sup> The terms “Human Subject Research,” “Research Involving Human Subjects,” “Clinical Research,” “Clinical Investigation,” “Clinical Study” and similar phrases are considered to be synonyms for the term Human Research.

<sup>ii</sup> Definitions of “identifiable private information” and “identifiable biospecimen” are included in FDA’s proposed rule to amend part 50, Protection of Human Subjects, and part 56, Institutional Review Boards (87 FR 58733, September 28, 2022). In that rule, the proposed definitions of “identifiable private information” and “identifiable biospecimen” harmonize with the revised Common Rule’s definitions of these terms (45 CFR 46.102(e)(5) and (6)).

<sup>i</sup> A “request for an approval or determination” includes approval of new research, response to modifications required to secure approval, continuing review of research, modification to previously approved research, request for study closure, or a determination whether an activity is exempt Human Research or is not Human Research. Submission of an updated list study personnel is not considered a modification of research and is therefore not a “request for an approval or determination.”

## SOP: Pre-Review

### 1 PURPOSE

This procedure establishes the process to pre-review a request for approval (approval of new research, approval to rely on an external IRB, humanitarian use device (HUD), continuing review of research, or modification to previously approved research) or a determination whether an activity is exempt Human Research or is not Human Research.

- 1.1 The process begins when the IRB receives a request for local IRB approval, including requests from other institutions when this institution is the IRB of record, e.g., for a Collaborative Study or Multi-Site Study, or a request to rely on an external IRB.
- 1.2 The process ends when the information has been placed on the agenda for an IRB meeting or will be handled by Non-Committee Review, or the information is sent to the Reliance Coordinator or IRB staff to review the request to rely on an external IRB.

### 2 REVISIONS FROM PREVIOUS VERSION

- 2.1 None

### 3 POLICY

- 3.1 The addition of a participating site to a previously approved protocol for which the IRB will serve as the IRB of record for that participating site is considered a modification to previously approved research.
- 3.2 Single subject protocol exceptions are reviewed as modifications to previously approved research.<sup>i</sup>
- 3.3 A new HUD protocol submission must be reviewed at a convened IRB meeting. Continuing review of a HUD can be handled by Non-Committee Review.

### 4 RESPONSIBILITIES

- 4.1 IRB staff members carry out these procedures.

### 5 PROCEDURE

- 5.1 If the submission is a response to modifications required to secure approval received within 30 days of the IRB review date:
  - 5.1.1 Evaluate whether the investigator made the required modifications.
  - 5.1.2 If the investigator made the required modifications, follow HRP-052 - SOP - Post-Review to issue an approval.
  - 5.1.3 If the investigator did not make the required modifications or made unrequested modifications, execute the "Request Pre-Review Clarification" activity from the investigator. Offer the investigator the opportunity to correct the submission.
    - 5.1.3.1 If the investigator will correct the submission, have the investigator make changes then execute the "Submit Response" activity and stop processing the current submission until changes are received.

- 5.1.3.2 If the investigator will not correct the submission, have the investigator execute the “Submit Response” activity to resubmit and continue processing.
- 5.2 If the request is for this institution to rely on an external IRB:
  - 5.2.1 Refer to HRP-806 - SOP - Review Request to Rely on External IRB
- 5.3 If the request includes review of a pSite submission:
  - 5.3.1 Determine if the pSite is engaged in the non-exempt human subjects research using HRP-311- WORKSHEET - Engagement Determination.
    - 5.3.1.1 If the pSite is not engaged in the non-exempt human subjects research, execute the “Submit Invitation Decision” activity to notify the lead investigator using HRP-850 - LETTER - Decline to Serve that this IRB will not serve as the IRB of Record for the pSite.
  - 5.3.2 If the pSite is engaged, click on the Institutional Profile area in the IRB system and:
    - 5.3.2.1 Confirm that the pSite has an active profile. If not, see 5.3.2.2.1.
    - 5.3.2.2 Determine whether an existing Authorization Agreement covers the study activities for the pSite.
      - 5.3.2.2.1 If not, follow HRP-801 - SOP - Establishing Authorization Agreements to collect the information needed to confirm reliance and create a new or updated Institutional Profile in the IRB system.

# **SOP: All Emergency Use, Compassionate Use (Device Only) and IRB Waiver for Individual Patient Expanded Access (Drug Only) Review**

## **1 PURPOSE**

- 1.1 This procedure establishes the process to review notifications of:
  - 1.1.1 Emergency use of a drug, biologic, or device in a life-threatening situation.
  - 1.1.2 Non-emergency individual patient/small group expanded access for an unapproved medical device (commonly known as Compassionate Use).
  - 1.1.3 Non-emergency individual patient expanded access use of an investigational drug for which an IRB waiver is requested.
- 1.2 The process begins when the IRB receives a notification of a proposed or actual use.
- 1.3 The process ends when a Designated Reviewer has:
  - 1.3.1 Determined whether the proposed or actual use will follow or has followed FDA-regulation and guidance; and
  - 1.3.2 Notified the physician and IRB staff of the determination.

## **2 REVISIONS FROM PREVIOUS VERSION**

- 2.1 None

## **3 POLICY**

- 3.1 Whenever possible physicians are to notify the IRB of a proposed emergency use of a drug, biologic, or device in a life-threatening situation in advance of the use.
- 3.2 Physicians are to notify the IRB of a proposed compassionate use of an unapproved device, for the purpose of obtaining concurrence from an IRB Chair.
- 3.3 Emergency uses and device compassionate uses cannot be claimed as research.
- 3.4 Investigators are to notify the IRB of a non-emergency individual patient expanded access use of an investigational drug "Request for Authorization to Use Alternative IRB Review Procedures" identified on FDA Form 3926 (field 10.b.) or a separate waiver request included with FDA Form 1571 for the purpose of obtaining concurrence from an IRB Chair or designee.

## **4 RESPONSIBILITIES**

- 4.1 A Designated Reviewer carries out these procedures.

## **5 PROCEDURE**

- 5.1 Determine if the notification/request is one of the following:
  - 5.1.1 Emergency use of a drug, biologic, or device in a life-threatening situation. If so, use the HRP-322 - WORKSHEET - Emergency Use to determine whether the circumstances will meet, or if the use described in the 5-day report have met, the regulatory and guidance criteria for emergency use, and indicate the results of this determination to the IRB staff (or directly to the physician if time sensitive).

- 5.1.1.1 If the notice is in advance of the use, inform the IRB staff (or physician if time sensitive) that the physician can proceed with the use or work with the physician to identify what additional information/procedures the physician needs to follow. Set a 5-day reminder to request the 5-day report.
- 5.1.1.2 If the actual emergency use described in the 5-day report did not follow FDA requirements, manage using the Submit RNI activity.
- 5.1.2 Compassionate use of a device. If so, use HRP-325 - WORKSHEET - Device. Compassionate Use to determine whether the circumstances will meet the regulatory and guidance criteria and indicate the results of this determination to the physician.
- 5.1.3 Non-emergency individual patient expanded access use of an investigational drug for which an IRB waiver is requested. If so, use HRP-314 - WORKSHEET - Criteria for Approval to determine whether the proposed use meets the requirements under 21 CFR 50 and 56.111<sup>i</sup> and indicate the results of this determination to the IRB staff.
  - 5.1.3.1 Execute the "Submit Designated Review" activity. For the Review Level, choose Expedited Review and choose "Other" for the category. Choose that continuing review is required.
  - 5.1.3.2 In the "Notes" section document that the decision to concur (or not) is in lieu of review and approval at a convened IRB meeting at which a majority of the members are present per the request for a waiver under 21 CFR § 56.105 of the requirements in § 56.108(c).
- 5.1.4 If none of the above, stop processing the request and inform the physician or submitter.
- 5.2 Inform IRB staff of the results of the evaluation.

## SOP: IRB Meeting Conduct

### 1 PURPOSE

- 1.1 This procedure establishes the process to conduct convened meetings.
- 1.2 The process begins when the IRB members gather for a convened meeting.
- 1.3 The process ends when the meeting is adjourned.

### 2 REVISIONS FROM PREVIOUS VERSION

- 2.1 None

### 3 POLICY

- 3.1 The IRB reviews research in accordance with the applicable regulatory criteria for approval.
- 3.2 The IRB chair (and vice chair, where applicable), votes as a regular member.
- 3.3 Meetings are conducted in person or via teleconference.
- 3.4 IRB attendance is captured by documenting in the IRB meeting minutes the IRB members and alternates in attendance, replacement of a voting member by an alternate, attendance of IRB members who participate through teleconference, and IRB members who are recused due to a conflicting interest.
- 3.5 If quorum is lost during a meeting, the IRB cannot take votes until the quorum is restored, even if more than half of the members are still present.
- 3.6 Substantive changes or requirements, requests for more information for IRB consideration, and other issues related to the criteria for approval require review and approval by the convened IRB.
- 3.7 Minor or prescriptive changes or requirements (modifications required to secure approval) may be reviewed for approval by the IRB chair or a designated individual.
- 3.8 The worksheets and checklists described in HRP-301 - WORKSHEET - Review Materials and listed below in "Section 6: MATERIALS" are provided to IRB members in advance of meetings per HRP-040 - SOP - IRB Meeting Preparation to conduct meetings and meet regulatory requirements.
- 3.9

### 4 RESPONSIBILITIES

- 4.1 The IRB chair carries out these procedures, unless otherwise noted.
- 4.2 Primary reviewers lead IRB members through consideration of the regulatory criteria for approval.

### 5 PROCEDURE

- 5.1 Call the meeting to order.
- 5.2 Ask IRB members whether anyone has a Conflicting Interest in any item on the agenda and note the responses.
- 5.3 Ask IRB members if there are any questions about the report of completed non-committee reviews that was made available to the IRB prior to the meeting.
- 5.4 For each agenda item:

- 5.4.1 Table the item when notified by IRB staff that requirements for review of a specific item as defined in HRP-305 - WORKSHEET - Quorum and Expertise are not met.<sup>i</sup>
- 5.4.2 If there are IRB members with a Conflicting Interest, invite the IRB to ask questions of those members and then ask those members to leave for discussion and voting or if present by teleconference, be placed on hold or disconnect for discussion and voting.
- 5.5 For each agenda item involving the initial review, modification or continuing review of a protocol:
  - 5.5.1 If there is a consultant present, ask the consultant to present his or her review to the IRB.
  - 5.5.2 If a consultant provided written information to the IRB, ask the primary reviewer to present that information to the IRB.
  - 5.5.3 Ask the scientific or scholarly reviewer or primary reviewer to present the scientific or scholarly review to the IRB.
  - 5.5.4 Ask the primary reviewer to lead the IRB through a discussion of the criteria in HRP-314 - WORKSHEET - Criteria for Approval and all referenced checklists (listed below) to have the convened IRB determine which regulatory criteria are met (or continue to be met), which are not met (or no longer met), and which would be met if the investigator modified the protocol as requested by the IRB.
  - 5.5.5 Restate the IRB's consensus regarding any protocol specific findings justifying a determination when required by a checklist and not previously determined and documented.
  - 5.5.6 Make a motion for one of the following actions:
    - 5.5.6.1 Approve (with a specific continuing review interval for initial or continuing review when applicable): Made when all criteria for approval are met. Include in motions for initial and continuing review the period of approval and the level of risk.
    - 5.5.6.2 Modifications Required to Secure Approval (with a specific continuing review interval for initial or continuing review when applicable): Made when IRB members require specific modifications such that an IRB staff member can determine whether an investigator has made the required changes without judging whether a change meets the regulatory criteria for approval. When making this motion, the assigned primary reviewer restates the modifications required by the IRB members and the IRB member's reasons for those changes.
    - 5.5.6.3 Defer: Made when the research does not qualify for Approval or Modifications Required to Secure Approval and the IRB has recommendations that might make the protocol approvable. When making this motion, the assigned primary reviewer describes the IRB member's reasons for the decision and describes recommendation to make the research approvable.
    - 5.5.6.4 Disapprove: Made when the research does not qualify for Approval or Modifications Required to Secure Approval and the IRB has no recommendations that might make the protocol approvable. When making this motion, the assigned primary reviewer describes the IRB member's reasons for the decision.
    - 5.5.6.5 Suspension or Termination of IRB Approval: Made when current approved research does not qualify for Approval or Modifications Required to Secure Approval. When making this motion, have the primary reviewer use HRP-321 - WORKSHEET - Review of Information Items to lead the convened IRB through a discussion of what actions are needed, if any, to protect subjects. The assigned primary reviewer describes the IRB member's reasons for the decision.

- 5.5.7 For modifications in response to a previous Suspension of IRB approval:
  - 5.5.7.1 Have the primary reviewer summarize any corrective actions taken by the Principal Investigator.
  - 5.5.7.2 Based on this new information, determine whether the corrective actions are sufficient to address the issues that prompted the suspension.
    - 5.5.7.2.1 If so, make a motion for the IRB to approve the modification, which will lift the suspension of IRB approval.
    - 5.5.7.2.2 If not, make an appropriate motion and identify the additional action items are required to protect subjects.
- 5.5.8 Review any modifications required to secure approval to ensure that the IRB staff has recorded them.
  - 5.5.8.1 Ensure that the required modifications include all final contingencies listed in the “Notes” section of the Pre-Review activity.
  - 5.5.8.2 For a pending financial interest review indicate that a determination that the financial interest is not a conflict of interest or has been eliminated can be verified by the IRB staff, but if there is a management plan, it must return to the convened IRB for review.
- 5.6 For each agenda item that is new information (Unanticipated Problem Involving Risks to Subjects or Others, Serious Non-Compliance, Continuing Non-Compliance, Suspension of IRB Approval, or Terminations of IRB Approval):
  - 5.6.1 Have the primary reviewer use HRP-321 - WORKSHEET - Review of Information Items to lead the convened IRB through a discussion of what actions are needed, if any, to protect subjects.
  - 5.6.2 Restate the IRB’s consensus regarding any actions that need to be taken to protect subjects.
  - 5.6.3 Make a motion for the IRB’s determination(s) regarding the action items (e.g., the motion is for the Principal Investigator to provide the IRB additional information regarding the status of currently enrolled subjects).
- 5.7 Open the floor for additional discussion.
- 5.8 Call for a vote.
- 5.9 Only IRB members may vote.
  - 5.9.1 If a member and an alternate are both present, only one may vote.
    - 5.9.1.1 Consultants may not vote.
    - 5.9.1.2 For a motion to be approved, it needs the approval of more than half of the members present at the meeting. (If there are 10 or 11 members present at the meeting, 6 votes are required for approval, which is greater than 5 and 5.5, respectively.)
- 5.10 Re-invite IRB members with a Conflicting Interest back into the meeting.
- 5.11 Provide any written information provided by a member or consultant to the IRB staff.
- 5.12 Adjourn the meeting when notified by IRB staff that quorum has been lost or when there is no further business.

- 3.6 Minutes may not be altered by anyone including a higher authority once accepted by the convened IRB.

### 4 RESPONSIBILITIES

- 4.1 IRB staff members carry out these procedures.

### 5 PROCEDURE

- 5.1 Execute the "Convene Meeting" activity.

# SOP: Response Plan for Emergencies-Disasters Impacting the HRPP

## 1 PURPOSE

- 1.1 This SOP establishes the process for initiating a response to an emergency/disaster situation impacting the HRPP or HRPP operations. Challenges to HRPP operations or the conduct of Human Research may arise, for example, from:
  - 1.1.1 Extreme weather events.
  - 1.1.2 Natural disasters.
  - 1.1.3 Man-made disasters.
  - 1.1.4 Infectious disease outbreaks.
- 1.2 The process starts when an emergency/disaster situation impacting the HRPP has occurred, or in preparation for scenarios where a potential emergency situation is imminent (e.g., natural disaster, man-made disaster, infectious disease pandemic, etc.) and HRPP operations and/or the ability of investigators to conduct Human Research is, or is likely to be, adversely impacted.
- 1.3 The process ends when the impact to the HRPP and the conduct of Human Research is assessed, and appropriate guidance is provided to HRPP personnel and the broader Human Research community.

## 2 REVISIONS FROM PREVIOUS VERSION

- 2.1 None

## 3 POLICY

- 3.1 HRPP leadership defers to designated institutional leadership and institution-wide disaster and emergency response planning and limits HRPP-specific disaster and emergency response planning only to those areas of operations or human research protections not otherwise covered by institution-level plans.
- 3.2 The HRPP evaluates its emergency response plans at least annually in accordance with the HRP-101 - Human Research Protection Program Plan and HRP-060 - SOP - Annual Evaluations of the HRPP.

## 4 RESPONSIBILITIES

- 4.1 The IRB Director or designee is responsible for carrying out these procedures.

## 5 PROCEDURE

- 5.1 If an emergency/disaster has occurred, or there is an imminent possibility of an upcoming emergency/disaster, assess the nature of the event and the appropriate response.
  - 5.1.1 Consult HRP-101 - Human Research Protection Program Plan to reference existing HRPP specific or institution specific emergency preparedness plans or information already in place.
  - 5.1.2 Contact the IO/OO and or designated institutional personnel responsible for institutional level emergency preparedness, and determine whether there are new or revised institution level emergency preparedness plans relevant to the current or anticipated emergency.

- 5.1.2.1 If yes, proceed in accordance with those plans and determine whether further contact or notification of the human research community is necessary.
- 5.2 Assess whether the emergency/disaster could impact HRPP operations:
  - 5.2.1 If the current or anticipated emergency/disaster will prevent any upcoming IRB meetings from properly convening in-person, and an in-person meeting was planned, determine whether the meeting can be conducted virtually or via teleconference.
    - 5.2.1.1 If yes, work with IRB members and staff to arrange for a virtual meeting. Follow HRP-040 - SOP - IRB Meeting Preparation to confirm quorum and availability of IRB members.
    - 5.2.1.2 If a virtual meeting is also not feasible under the circumstances caused by the emergency/disaster, determine whether to cancel or reschedule the meeting(s).
    - 5.2.1.3 If currently approved Human Research has or will expire prior to IRB review due to the IRB meeting cancelation/rescheduling, follow HRP-063 - SOP - Expiration of IRB Approval.
  - 5.2.2 If IRB staff will be unable to complete their protocol processing and review responsibilities during the emergency/disaster, or if capacity will be limited for a period of time:
    - 5.2.2.1 Work with the staff to use any available capacity to prioritize protocol processing, pre-review, and review of continuing review submissions.
    - 5.2.2.2 If currently approved Human Research has or will expire prior to IRB review due to IRB office capacity limitations follow HRP-063 - SOP - Expiration of IRB Approval.
    - 5.2.2.3 Work with the IO/OO to notify the research community of the IRB Office's limited capacity to process and review submissions.
    - 5.2.2.4 When the emergency/disaster no longer presents a limitation to IRB Office functions, work with the IO/OO to notify the IRB members and staff and research community that normal business operations have resumed.
  - 5.2.3 If impact to local HRPP operations will be extensive or long-lasting, determine whether reliance on an external IRB(s) is required.
    - 5.2.3.1 If reliance on one or more external IRBs is required and the necessary reliance agreements are not currently in place, work with the IO/OO to identify appropriate candidates for external IRB reliance and follow HRP-801 - SOP - Establishing Authorization Agreements.
  - 5.2.4 If data or records (paper or electronic) are unavailable during the current or anticipated emergency/disaster, consult with local IT support and or electronic system vendors to implement alternative procedures to access data/backup data.
- 5.3 Assess whether the emergency/disaster could necessitate additional flexibility in IRB review processes. If yes:
  - 5.3.1 Review HRP-352 - WORKSHEET - Additional Emergency-Disaster Review Considerations with the IRB Chair(s) and staff in advance of upcoming IRB meetings.
  - 5.3.2 Communicate to IRB Members (including Designated Reviewers performing non-committee reviews) that the additional considerations in the worksheet may be incorporated into IRB reviews where appropriate to maximize regulatory flexibility while continuing to assure research subject safety during the emergency/disaster.
  - 5.3.3 Determine whether additional communications to the research community are necessary to inform investigators of any additional measures the IRB will take to maximize regulatory flexibility during the emergency/disaster and notify the community as appropriate.

- 5.4 Assess whether the emergency/disaster could impact some or all investigators' ability to conduct Human Research. If yes:
- 5.4.1 Notify the research community of the need for protocol-specific emergency/disaster risk mitigation planning. Use HRP-542 - LETTER - Implementation of HRPP Emergency-Disaster Response Plan.
  - 5.4.2 Provide investigators with copies of (or links to) HRP-108 - FLOWCHART - Study-Specific Emergency-Disaster Risk Mitigation Planning.
  - 5.4.3 Provide investigators with copies of (or links to) HRP-351 - WORKSHEET - Protocol-Specific Emergency-Disaster Risk Mitigation Planning.
  - 5.4.4 If the emergency/disaster could impact clinical care standards which could in turn impact research, develop guidance for researchers that clarify what does and does not require IRB review (e.g., screening procedures mandated by the health care system in which a clinical trial is being conducted).
  - 5.4.5 When the emergency/disaster no longer presents a limitation to Human Research activities, work with the IO/OO to notify the research community that normal business operations have resumed.
- 5.5 Evaluate whether the nature of the emergency/disaster may pose additional threats or risk to specific aspects of the institutions research activities or facilities. (For example, man-made disasters, industrial accidents, or terrorist threats could potentially impact some chemical, biological, or radiologic facilities to a greater extent than other facilities.)
- 5.5.1 If yes, and if broader institution-level emergency/disaster preparedness measures do not already address these specific activities or facilities, work with the IO/OO and appropriate institutional leadership to escalate and address any additional threats or risks.

## SOP: Informed Consent Process for Research

### 1 PURPOSE

- 1.1 This procedure establishes the process to obtain informed consent from subjects, the Legally Authorized Representative (LAR) of adults unable to consent, or the parents or guardians of children.
- 1.2 The process begins when an individual identifies a subject as a potential candidate for a research study.
- 1.3 The process ends when a subject or the subject's LAR provides legally effective informed consent or declines to do so.

### 2 REVISIONS FROM PREVIOUS VERSION

- 2.1 None

### 3 POLICY

- 3.1 In this procedure "investigator" means a principal investigator or an individual authorized by the principal investigator and approved by the IRB to obtain consent for the specific protocol, such as a co-investigator, research assistant, or coordinator.
- 3.2 In this procedure "subject/representative" means:
  - 3.2.1 The subject when the subject is an adult capable of providing consent.
  - 3.2.2 LAR when the subject is an adult unable to give consent.
  - 3.2.3 One or both biologic or adoptive parents when the subject is a child or in the absence of a parent a person other than a parent authorized under applicable law to consent on behalf of the child to general medical care.
- 3.3 If the subject/representative understands more than one language, whenever possible, conduct the consent process in the preferred language of the subject/representative.
- 3.4 If the subject is an adult unable to consent:
  - 3.4.1 The IRB must have specifically approved the protocol to allow the enrollment of adults unable to consent.
  - 3.4.2 Permission is obtained from a LAR.
  - 3.4.3 A LAR must be in the class or persons approved by institutional policy or the IRB. See HRP-013 - SOP - LARs, Children, and Guardians.
- 3.5 If the subject is a child:
  - 3.5.1 The IRB must have specifically approved the protocol to allow the enrollment of children.
  - 3.5.2 Permission is obtained from both parents unless:
    - 3.5.2.1 One parent is deceased, unknown, incompetent, not reasonably available;
    - 3.5.2.2 Only one parent has legal responsibility for the care and custody of the child; or
    - 3.5.2.3 The IRB has specifically approved the protocol to allow the permission of one parent regardless of the status of a second parent.
  - 3.5.3 In the absence of a parent permission may be obtained from an individual authorized to consent under applicable law on behalf of a child to general medical care.

- 3.6 If the subject/representative cannot speak English:
  - 3.6.1 The IRB must have specifically approved the protocol to allow the enrollment of subjects able to speak the language that the subject understands.
- 3.7 Conduct all discussions in a private and quiet setting.
- 3.8 Any knowledgeable individual may:
  - 3.8.1 Review the study with subject/representative to determine preliminary interest.
  - 3.8.2 If the subject/representative is interested, notify an investigator.
  - 3.8.3 If the subject/representative is not interested, take no further steps regarding recruitment or enrollment.

#### **4 RESPONSIBILITIES**

- 4.1 The principal investigator is responsible to ensure these procedures are carried out.

#### **5 PROCEDURE**

- 5.1 If the consent process will be documented in writing with the long form of consent documentation:
  - 5.1.1 Obtain the current IRB approved consent form.
  - 5.1.2 Verify that you are using the most current IRB-approved version of the study specific consent form and that the consent form is in a language understandable to the subject/representative.
  - 5.1.3 Provide a copy of the consent form to the subject/representative. Whenever possible provide the consent form to the subject/representative in advance of the consent discussion.
  - 5.1.4 If the subject/representative cannot read, or is physically unable to talk or write, obtain an impartial witness to be present during the entire consent discussion to attest that the information in the consent form and any other information provided was accurately explained to, and apparently understood by, the subject/representative, and that consent was freely given. The witness may be a family member or friend. The witness may not be a person involved in the design, conduct, or reporting of the research study.
  - 5.1.5 If the subject/representative cannot speak English, obtain the services of an interpreter fluent in both English and the language understood by the subject/representative. The interpreter may be a member of the research team, a family member, or friend of the subject/representative.
  - 5.1.6 Read the consent document (or have an interpreter read the translated consent document) with the subject/representative. Begin with a concise and focused presentation of key information that is most likely to assist the subject/representative to understand the reasons why one might or might not want to participate in the research. Explain the details in such a way that the subject/representative understands what it would be like to take part in the research study.
- 5.2 If the consent process will be documented in writing with the short form of consent documentation:
  - 5.2.1 Obtain the current IRB approved short consent form and summary (same as the English consent form used for long form of consent documentation).
  - 5.2.2 Verify that you are using the most current IRB-approved version of the study specific short consent form and summary and that the short consent form is in a language understandable to the subject/representative.
  - 5.2.3 Provide copies to the subject/representative. Whenever possible provide the short consent form and summary to the subject/representative in advance of the consent discussion.
  - 5.2.4 Obtain the services of an interpreter fluent in both English and the language understood by the subject/representative. The interpreter may be a member of the research team, family member, or friend of the subject/representative.

- 5.2.5 Obtain the services of an impartial witness who is fluent in both English and the language spoken by the subject/representative to be present during the entire consent discussion to attest that the information in the short consent form, summary, and any other information provided was accurately explained to, and apparently understood by, the subject/representative, and that consent was freely given. The witness and the interpreter may be the same person. If possible, it is recommended that the witness should not be related to the subject. The witness may not be a person involved in the design, conduct, or reporting of the research study.
- 5.2.6 Have the interpreter translate the summary (not the short consent form) to the subject/representative. Begin with a concise and focused presentation of the key information that is most likely to assist the subject/representative to understand the reasons why one might or might not want to participate in the research.
- 5.2.7 Through the interpreter explain the details in such a way that the subject/representative understand what it would be like to take part in the research study. When necessary, provide a different or simpler explanation to make the information understandable.
- 5.2.8 Have the subject/representative read the short consent form or have the interpreter read the short consent form to the subject/representative.
- 5.3 If the requirement for written documentation of the consent process has been waived by the IRB:
  - 5.3.1 Obtain the current IRB approved script.
  - 5.3.2 Verify that you are using the most current IRB-approved version of the study specific script and that the script language is understandable to the subject/representative.
  - 5.3.3 When possible, provide a copy of the script to the subject/representative.
  - 5.3.4 If the subject/representative cannot speak English, obtain the services of an interpreter fluent in both English and the language understood by the subject/representative. The interpreter may be a member of the research team, a family member, or friend of the subject/representative.
  - 5.3.5 Read the script (or have an interpreter translated the script) with the subject/representative. Begin with a concise and focused presentation of the key information that is most likely to assist the subject/representative to understand the reasons why one might or might not want to participate in the research. Explain the details in such a way that the subject/representative understands what it would be like to take part in the research study.
- 5.4 Invite and answer the subject/representative's questions.
- 5.5 Give the subject/representative time to discuss taking part in the research study with family members, friends and other care providers as appropriate.
- 5.6 Invite and encourage the subject/representative to take the written information home to consider the information and discuss the decision with family members and others before making a decision.
- 5.7 Ask the subject/representative questions to determine whether all of the following are true, and if not, either continue the explanation or determine that the subject/representative is incapable of consent:
  - 5.7.1 The subject/representative understands the information provided.
  - 5.7.2 The subject/representative does not feel pressured by time or other factors to make a decision.
  - 5.7.3 The subject/representative understands that there is a voluntary choice to make.
  - 5.7.4 The subject/representative is capable of making and communicating an informed choice.
- 5.8 If the subject/representative has questions about treatments or compensation for injury, provide factual information and avoid statements that imply that compensation or treatment is never available.

- 5.9 Once a subject/representative indicates that he or she does not want to take part in the research study, this process stops.
- 5.10 If the subject/representative agrees to take part in the research study:
  - 5.10.1 If the subject is a child:
    - 5.10.1.1 Whenever possible explain the research to the extent compatible with the child's understanding.
    - 5.10.1.2 Request the assent (affirmative agreement) of the child unless:

      - 5.10.1.2.2 The IRB determined that assent was not a requirement.
    - 5.10.1.3 Once a child indicates that he or she does not want to take part in the research study, this process stops.
  - 5.10.2 If the subject is an adult unable to consent:
    - 5.10.2.1 Whenever possible explain the research to the extent compatible with the adult's understanding.
    - 5.10.2.2 Request the assent (affirmative agreement) of the adult unless:
      - 5.10.2.2.1 The capability of the adult is so limited that the adult cannot reasonably be consulted.
      - 5.10.2.2.2 The IRB determined that assent was not a requirement.
    - 5.10.2.3 Once an adult unable to consent indicates that he or she does not want to take part in the research study, this process stops.
